To be considered eligible under the 2019-21 W4Q program, projects must:

- create and/or sustain jobs in a local community or across a region (for example, this could mean creating new jobs, sustaining existing jobs that might otherwise have been lost, or jobs relating to an existing work program that can be expanded); and
- be able to be delivered by 30 June 2021; and
- not already be proposed for funding in the recipient Local Government’s 2019-20 or 2020-21 budget.

In addition to the above, eligible projects must either:

- improve the condition (maintenance), quality or lifespan of a Local Government-owned capital asset such as, but not limited to; footpaths, kerb and channel works, roads, car parks, sewer, water and stormwater systems and networks, shade structures, playgrounds, community and sport facilities, halls, swimming pools and water play;
- be new minor infrastructure works; or
- be new maintenance or minor works for disaster resilience and preparedness such as works that protect existing essential public infrastructure and/or build resilience to future natural disaster events.

Notwithstanding the above, the Department may consider as eligible, projects where constructing a replacement asset can be demonstrated to be more economically viable in the short and long term, than performing maintenance or upgrading the asset.

In accordance with Section 1.2 j) of the Funding Deed of Agreement, all estimated project costs are exclusive of Goods and Services Tax (GST).
Appendix 3 – Ineligible project costs

Project costs ineligible to receive funding under the 2019-21 W4Q include:

- projects already commenced or completed works (see Note 1 below);
- purchase of an asset or works to an asset that is not or will not be owned and/or controlled by the recipient Local Government;
- land purchases and/or costs associated with land purchases;
- land buy-back schemes;
- works constructed on land not owned or controlled by the recipient Local Government, except where it has permission to construct on Queensland Government-owned land (see Note 2 below);
- projects where land ownership has not been resolved at the time of submitting the List of Projects;
- projects with lengthy approval(s) requirements;
- works involving planning and design only;
- temporary works;
- planning studies;
- purchase, lease or hire of core business equipment such as plant, motor vehicles and office equipment, unless directly required for construction (e.g. water trucks or excavators);
- temporary projects, except where required as part of the construction of the eligible works or required to enable completion of the proposed project;
- statutory fees and charges and/or any costs associated with obtaining regulatory and/or development approvals;
- legal expenses;
- house raising or relocation;
- official opening expenses;
- ongoing costs for administration, operation and maintenance or engineering;
- corporate overheads and on-costs, including technical, professional and clerical salaries of Local Government employees (see Note 3 below);
- movable / portable furnishings, supplies and items (e.g. computers);
- costs associated with preparing the List of Projects and/or associated supporting material;
- any other costs as determined by the Department.

The above list identifies common examples of ineligible projects and costs and is not intended to be definitive. If there is any doubt about ineligible projects or costs, please contact the Department.

**Note 1:** Where a project commences, and the Local Government incurs costs towards the project (e.g. planning or detailed design), and the Local Government decides to not proceed with the project, the costs incurred will not be reimbursed.

**Note 2:** should Local Governments wish to undertake works of this nature, evidence of land tenure and or permissions must accompany the List of Projects submission.

**Note 3:** The remuneration of executive officers, such as the Chief Executive Officer (CEO), Deputy CEO and Chief Engineer should not be included in the project estimated costs.

2019-21 W4Q funds are not to be used by the recipient Local Government as their contributions towards other State or Commonwealth Government funding programs.
Appendix 4 – 2019-21 W4Q COVID 19 Response Funding Arrangements

Overview

The 2019-21 W4Q COVID-19 response amendments to the 2019-21 W4Q funding guidelines are to assist eligible Councils with costs associated with COVID-19 pandemic preparedness and/or response.

Eligible Councils

The following Councils have been subject to Commonwealth bio-security declarations in relation to the COVID-19 pandemic and are eligible to request variations to their endorsed 2019-21 W4Q projects to allow funding to be diverted to COVID-19 responses in their local government area:

- Aurukun Shire Council
- Burke Shire Council
- Cherbourg Aboriginal Shire
- Cook Shire Council
- Doomadgee Aboriginal Shire Council
- Hope Vale Aboriginal Shire Council
- Kowanyama Aboriginal Shire Council
- Lockhart River Aboriginal Shire Council
- Mapoon Aboriginal Shire Council
- Mornington Shire Council
- Napranum Aboriginal Shire Council
- Northern Peninsula Area Regional Council
- Palm Island Aboriginal Shire Council
- Pormpuraaw Aboriginal Shire Council
- Torres Shire Council
- Torres Strait Island Regional Council
- Woorabinda Aboriginal Shire Council
- Wujal Wujal Aboriginal Shire Council
- Yarrabah Aboriginal Shire Council

Eligible Budget

There is no increase to Council’s 2019-21 W4Q budget – eligible Councils will need to manage expenditure within their current approved budgets and project allocations.

In accessing this funding, eligible Councils will need to consider the delivery of other projects in their W4Q allocation that may be put on hold or not started.

Funding Period

The Funding Period for the 2019-21 W4Q COVID-19 response remains unchanged. All projects must be completed by 30 June 2021.
Eligible Projects

Eligible Councils will be able to request to use their available 2019-21 W4Q budgets to fund expenses considered reasonable and that are directly related to their response to COVID-19 issues in its Council area.

This does not include activities and associated costs which:
- are covered under alternative State or Commonwealth funding or funding program sources,
- the Council could reasonably be expected to incur responding to the COVID-19 crisis (e.g. charging for costs associated with the attendance at meetings or the provision of expert advice by Council employed technical experts),
- are not directly related to the immediate response to the COVID-19 crisis
- normal operational maintenance and administration costs, including salaries or wages, and other ongoing administrative expenditure.

Any expenditure related to COVID-19 responses the Council Chief Executive Officer (CEO) considers relevant will be eligible to be included in a project. However, Councils are encouraged to consider prioritising the funding of items that are not normal course of Council business.

Examples of items that may be considered eligible for funding under the 2019-21 W4Q COVID-19 Response program, include:
- Hiring minor plant such as generators to assist with event responses
- Supporting capabilities for public health emergencies – e.g. converting unused buildings to medical type buildings
- Building/installing temporary facilities providing temporary accommodation for displaced people (‘dongas’)  
- Emergent upgrade to water and sewerage equipment

Please note this list is not exhaustive.

Approval Process

Eligible Councils W4Q 2019-21 program budgets are currently fully allocated to approved projects and Councils should follow the standard W4Q variation process to have expenditure allocated to COVID-19 response measures.

Eligible Councils are required to consider the projects they wish to withdraw or change the scope of in order to make funding available for a proposed COVID-19 response measure project.

The Council should then advise the Department which projects will either be withdrawn or varied, along with a list proposed activities and associated costs for their COVID-19 response project.

The Department will assess the request and advise the Council as to the eligibility of the proposed items or works.

NOTE: Eligible Councils must not incur any COVID-19 related expenses against their W4Q 2019-21 program allocation unless they have received approval to do so from the Department.
Acquittal Process

As expenses incurred under the COVID-19 response measures will be considered as W4Q projects, Councils are to acquit expenditure in the same way it would any other endorsed W4Q project. See pages 7 and 8 of these guidelines for details.

Councils will not be required to support acquittals with photographs, however, a separate cost centre in a Council’s financial system must be established for COVID-19 W4Q 2019-21 expenditure and provided to the Department if requested.

Councils should ensure records of expenditure are maintained, detailing:
- the quantum of funds spent; and
- the nature of the expense

Acknowledgement Requirements

Councils will not be required to acknowledge the State’s financial contribution to COVID-19 Response measures.
