

Local government principles

To ensure the system of local government in Queensland is accountable, effective, efficient and sustainable, all mayors, councillors and council employees are required to carry out their responsibilities in accordance with the local government principles.

Legislation

The local government principles are outlined in section 4 of the *Local Government Act 2009* and section 4 of the *City of Brisbane Act 2010*.

Both Acts are principle-based legislation, which allow local governments to focus on required outcomes and to decide on the appropriate way to achieve those outcomes in a way that suits their particular situation. It gives local governments flexibility to decide processes that suit their size, location and administrative circumstances, as long as the processes are rational, justifiable and transparent.

Various provisions of the Acts also provide penalties for the failure mayors, councillors and council employees who fail to meet their obligations.

Principles

The principles highlight the absolute essentials of excellently performing local governments that Queenslanders expect and deserve.

Transparent and effective processes, and decision-making in the public interest

Sustainable development and management of assets and infrastructure, and delivery of effective services

Democratic representation, social inclusion and meaningful community engagement

Good governance of, and by, local government

Ethical and legal behaviour of councillors, local government employees and councillor advisors
